

June's journey cheat codes

[Continue](#)

Nintendo's Pokemon Go encourages gamers to get out into the world, and capture a variety of tiny pocket monsters using their mobile smartphones; however, the game can also get competitive and these cheats can help you stay ahead. Whether you need to capture a Pokemon that isn't in your geographical region or can't stand waiting for an event to complete, we've got you covered. Cheating is not advised by the creators of Pokemon Go and some cheats, such as location spoofing, may cause your account to become banned. Please proceed with caution. Pokemon Go is a location-based mobile game, meaning that depending on your geographical location, some Pokemon may or may not be available. As a result of this limitation, some players have taken to what is known as location or GPS spoofing in which they trick their device into thinking it is somewhere it is not. Want to appear somewhere that you aren't? Sakkwokkie / Getty Images To follow these steps on an iPhone, it must first be jailbroken. Open the Cydia app on your jailbroken iPhone. Search for iOSRoamingGuide and install it. Open Apple Maps on your iPhone and position the map in a location where you would like to spoof your GPS. Tap the location on the map to drop a pin. Scroll down, and select the bit of Chinese text — the button is in a foreign language and cannot be changed. To return to your actual GPS' given location, remove the pin from Apple Maps, then tap on the location button (hollow arrow) in the bottom-left corner to reset your location. You are now ready to play Pokemon Go at your chosen location! Download Fake GPS Go from the Google Play Store. Open the Settings app on your Android device. Scroll down to the About phone section and select it — this option may be located under the System menu depending on your model phone. Tap the displayed Build number seven times for your device to be placed in developer mode. Now, select the Developer options menu item that appears. Select the Select mock location app option, and select Fake GPS Go. Lastly, open the Fake GPS Go app and select the location you would like to spoof. To stop spoofing, simply hit the Stop button. You are now ready to play Pokemon Go at your chosen location! Sometimes you just don't have time to sit through all of the animations present in the Pokemon Go app — after all, you could be capturing Pokemon instead of merely sitting around. Follow these steps to skip the raid, catch, and evolution animations in Pokemon Go. Don't have time to wait? Try these tricks to speed up your game. Cylonphoto / Getty Images Tap the Pokemon you want to catch as you normally would. With your other hand, use a finger to swipe from right to left at the bottom of the screen — leave your finger remaining in the left corner, and do not remove it. Throw the Poke ball as you normally would. Remove your finger from the left corner as the Poke ball hits the Pokemon. Tap the screen to exit the Poke Ball menu, then tap the Run icon in the top-left to complete the catch, while bypassing the catch animation. Check to see if you have successfully captured the Pokemon. If not, try again. Create an empty team for the raid. Join the raid you wish to take part in. Pick the empty team you had created earlier. Wait for the raid to start. Once it begins, you will be prompted to pick your real raid team — this bypasses the normal Raid animation screen. Don't have time to wait for the evolution animation to complete? Just quit the game and relaunch it — the process is really that simple. Once the evolution animation begins, simply force quit the game, and launch it again. The process to start the game is typically much shorter than the amount of time it takes for the evolution animation to complete, saving you a bit of time. Easily take down gyms with friends. piola666 / Getty Images If you have a few friends with you, it is possible to remove any Pokemon from a Gym. Nothing can stop you and your friends with this cheat onboard. Just know that this is one powerful cheat, so wield its power with responsibility and caution. Begin your gym battle with two other friends, making three total players. Have both Player 1 and Player 2 drop-out immediately, and allow the Player 3 to continue battling. Have both Player 1 and Player 2 join a new gym battle. Have Player 1 drop-out immediately and allow the Player 2 to continue battling. Have Player 1 join a new gym battle. Have every player finish their battles. Due to the way Pokemon Go handles gym battles, the Pokemon in question will be dealt with considerably more damage, allowing you to remove it from the gym. Need to move forward in time to complete a task or just can't wait to pick up your next raid pass? One option is to push your phone's date and time manually forward within settings. Follow these steps to easily alter the date on your phone and acquire what you need in less time. Tetra Images / Getty Images Many of your phone's services and apps may rely on the clock, and changing your device's time around may cause unwanted behavior on your device. Change Time on iPhone: Settings > General > Time & Date Change Time on Android: Settings > More > Date and Time Don't have time to locate where a specific Pokemon might show up on the map? Utilize free online trackers to keep an eye on the surrounding area and know the status of gyms, raids, and other events appearing around you. Our top recommendation for such a website is PokeHuntr, followed by Pokemon Go Map, but you can also find your own options by searching with your favorite search engine. Pokemon Go bases a number of in-game actions depending on how far you walk or travel—such as egg hatching. If you begin moving at a speed over 10km per hour, the process stops as it assumes that you are in a moving vehicle; however, if you have an Apple Watch, you can override the feature. Suwannar Kawila / EyeEm / Getty Images From your Apple Watch, and the Pokemon Go app, begin a workout. As you travel, simply keep your hand bouncing up and down on your knee—this action will trick Pokemon Go into believing that you are taking part in physical activity. Just note that if you go too fast, even Pokemon Go will know you're lying. Thanks for letting us know! Get the Latest Tech News Delivered Every Day Subscribe Tell us why! Doom Eternal has a lot of collectibles scattered throughout its levels, despite being a fairly linear shooter. Cheat codes are easily the most entertaining of the bunch, though. Doom Eternal cheat codes let you do everything from gain infinite ammo to hear the roar of QuakeCon while you're playing, and in this guide, we're going to show you how to find all of them. There are 14 cheat codes total, 11 of which are scattered throughout the levels. Another two are located in the Fortress of Doom, and the final cheat code is unlocked by fully upgrading your Praetor suit. If you're going for all the collectibles in Doom Eternal, make sure to go after the cheat codes first. Enabling a select few will make replaying levels infinitely easier. Further reading Infinite Extra Lives Description: Gain infinite extra lives. The Infinite Extra Lives cheat code is in the Hell on Earth mission, toward the end. Continue through the mission until you reach the subway. From there, follow the path until you fight the second tentacle demon (the monsters that come suddenly out of the ground). Opposite the second demon, you'll find a crate. Jump on top of it, then follow the path to find the cheat code. IDDQD Description: Gain Sentinel Armor for the whole mission. The IDDQD cheat code comes about halfway through the second mission in Doom Eternal, Cultist Base. Follow the main path until you pick up the Super Shotgun. Shortly after, you'll arrive at an arena with a bunch of cages that you have to punch open. Do so, and deal with the enemies inside. After that, use one of the bars on either side of the cage to swing up to a platform in the center. There, you'll find the cheat code. All Runes Description: All runes unlocked. Probably the easiest cheat code to find, you can pick up the All Rune cheat code in the Fortress of Doom. From the spawn location, head to the attached tower on your left. You'll need to spend some Sentinel Batteries to unlock it. Inside, you'll find a big hole in the wall. Jump out of it, and shortly before the bottom, dash in to reach a ledge. You'll find the cheat code in the hidden room. Infinite Ammo Description: All weapons have infinite ammo. The Infinite Ammo cheat code is fairly easy to find. In the Super Gore Nest level, continue forward until you reach the second big fight around a gore nest. Clear the enemies out and head to the right side of the nest (when facing from the entrance). You'll find a small, beige circle toward the bottom. Jump toward it and dash at the last minute to break the wall. Inside, you'll find this cheat code. IDKFA Description: All weapons are unlocked and mastered, and all equipment is unlocked. Late in the Arc Complex level, you'll need to jump from a window, swing from a bar, and land in a window across the street. This is right after a large battle near the level's Slayer Gate. After landing, you'll see a large hole in the floor, with the cheat code very obviously displayed. Drop down to grab it. Powerup Mode: Infinite Onslaught Description: Activates quad damage for the whole mission. Late in the Mars Core mission, you'll need to load yourself into an artillery gun and fly across the map. After you do, continue forward until you reach a room with a ledge and multiple tentacle demons (it's very shortly after you land). Instead of continuing straight, head to the right and drop through the hole in the floor. You'll find this cheat code at the bottom. Silver Bullet Mode Description: Staggered enemies immediately die when hit by projectiles, explosions, the Flame Belch, or dashing. You can find this cheat code in the Doom Hunter Base mission, about halfway through. Follow the main path until you reach a section with intersecting lasers that you need to pass through. Do so, and deal with the enemies on the platform ahead. After you're done, press the green skull in to trigger a small cutscene. There's a small platforming section that follows next, and at the end, you'll be asked to make a jump to a high ledge (where the objective marker is). Instead of making the jump, climb up and drop through the hole at the top. You'll snag the cheat code on the way down. Fully Upgraded Suit Description: Unlocks all of the perks for the Praetor suit. This one is easier to find than it looks. In the Fortress of Doom, you'll see this cheat code on a high ledge near the center of the map. You'll probably spot the cheat code right away. The problem is reaching it. In the same room, look to the high right side to see several stained glass windows. One of them should have a red target. Shoot it to spawn a jump pad, then take the jump pad up to grab the cheat code. Powerup Mode: Override Description: Activates Haste for the whole mission (increased fire and movement speed). The Override cheat code is in Taras Nabad, a short way into the level. Continue until you have to solve a puzzle in radioactive water, then continue through the catacombs. At the end, you'll enter a battle arena with a locked door at the other end, near some BFG ammo. Deal with the demons and continue into the next room. On the left, you'll see a breakable wall. Break through, and you'll find this cheat code, as well as a secret gore nest, on the other side. Famine Mode Description: Demons will no longer drop health or armor when they die. You can find the Famine Mode cheat code in Nekravol (the first part, not the second). Continue through the level until you have to take a cage to a new area. From there, continue on the main path until you reach a large arena with a single rotating spike pillar in the center. Finish the enemies off inside, and use the grips on the wall to activate one of the chains blocking the main door. Doing so will also open another door, which you have to follow through to progress the level. Deal with the Marauder inside, then wait for a gap in the corpse cage elevator next to the fire. Drop down, and you'll find this cheat code. Party Mode Description: Whenever you destroy a demon body part or get a headshot, the body part will explode into confetti. The Party Mode cheat code is one of the few that shows up early in a level. You can find it in Nekravol Part II immediately after the first battle. After dealing with the first large group of enemies, head down the hall, following the objective marker. At the end, you're supposed to drop down. Instead, jump to a stuck elevator cart to the left, then turn around and look at the wall below where you jumped. There should be a breakable wall there. Jump down and dash at the last second to break the wall. You'll find the cheat code inside. Instant Stagger Mode Description: One hit from projectiles, explosions, Flame Belch, or dashing instantly staggers demons. It doesn't work on bosses. The Instant Stagger Mode cheat code is also located in Nekravol Part II, at the very end of the level. At the end, you'll enter an arena where you need to break two titan chains. Break the chains, but don't continue past that. Instead, turn back around and drop down the elevator shaft where you came up. Turn around immediately after dropping down to spot a small passage with the cheat code. You'll die immediately if you fall too far, and respawn at the top, so don't worry if you don't get it on your first try. Powerup Mode: Berserk Description: Activates Berserk for the whole mission (10x increase to fist damage). Only works on missions one, two, five, six, and seven. You can find this cheat code a short way into the last full level, Urdak. Continue through the level until you align the second ring. After, continue out of the control room to the left and look for a small, hidden area to the left. There's a breakable wall there. At this point, you should know what to do. Jump, dash at the last second, and the cheat code is yours. QuakeCon Mode Description: Fans cheer you on throughout the mission. Finally, QuakeCon Mode is easy to find but tough to unlock. You'll need to fully upgrade your Praetor suit to unlock this code. You can easily upgrade the suit fully during your first playthrough if you're diligent with tracking down secret areas and finding collectibles. How to use cheat codes in Doom Eternal The "cheat codes" in Doom Eternal aren't actually cheat codes at all. When you select a level, you can enable any number of cheats you've collected for that level. In the mission select screen, press the button next to Cheats on the bottom (R on keyboard) to open the cheat menu. Select any cheats you want, or use the Activate All Cheats option, to enable them. Cheats stay in effect until you disable them. Note that you won't find this option unless you've already unlocked a cheat code. Editors' Recommendations
