I am really impressed with the number of tasks this app performs. In most cases, these types of apps require you purchase the Pro version to perform to the level described, but not this app. It really blows all other similar apps out of the water. I highly recommend to anyone considering downloading. You will uninstall all other cleaning apps once you download this one. Thank you for offering consumers such an amazing app! Vicki Underwood: Nice and fast cleaning. I just wish you could tell me which files are important since there were over 600 files done mostly by someone else that has been hacked into my phones and is mirroring & blocking me from the files so don't know what was in them. They've downloaded a bunch of hidden stuff that needs deleting (example: phone call recorder) Trying to get credit card info if they haven't got it yet? Don't know. Mark Connelly: It's handy & reliable. It doesn't do anything you can't do yourself, it just does it faster and more systematically. You may review every file it suggests for removal, or just select all and let it go. A handy app to keep unwanted and junk files cleared out, and apps put to sleep, regaining space and working memory. One of the best premium features of Avast Cleaner Pro Apk is automatic cleaning. Users can schedule automatic cleaning of their device with the help of this feature, and it will then remove all the garbage files in the background. Ad-Free Environment We all know that advertisements are the key source of revenue for any app, but we can't forget that ads can ruin the user experience and limit the app's usability. To address this issue, we completely reworked the Avast cleaner Prp APK and deleted all advertising. Optimize Your Photo Library Make your photo library more efficient. Find and assess your poorest photos automatically, so you can edit your gallery and free up space. Remove photos that are duplicated, similar, old, or of poor quality. Optimize the size of your photos and save the originals to the cloud. Choose between low compression and high compression for better print quality and space savings. Choose the 'best photo' from a bunch. Booster for free You can now speed up your phone to achieve the best performance. When you use your phone excessively and download large programs and files, the system will slow down. To keep the system running smoothly, you'll need an application that can also keep your phone running faster. Avast Cleanup Premium may assist you with this, as well as speed up your phone. Boost your RAM With a number of applications open, your RAM may get slower; make sure you make it faster by using the RAM booster feature of this fantastic cleanup application. Random Access Memory, or RAM, is what allows us to run many apps at the same time! Running large and many applications isn't a problem if you have at least 4GB of RAM. However, if your phone has insufficient RAM, you may experience a sluggish phone! Hibernation Mode in Avast Cleanup Pro allows you to increase your RAM. This prevents eagerly anticipated power programs from operating in the background! It allows you to make the most of your RAM so you may play around and run other programs! Identify large files This program recognizes large files that may be too heavy for your phone. You can delete them right immediately if you want to get rid of them. There are a lot of videos in this category that you can remove right away. No Ads There are no advertisements. Being unable to bypass advertisements might damage your experience and limit the app's usability. We do know, however, that advertising is the primary source of revenue for any app. So, to address this issue, we've fully revamped this version, which means you'll never see any obnoxious advertising again. Storage Space Make more storage space available. To make room for the things you want, get rid of the things that are taking up space. Unnecessary files, such as program cache, temporary files, or leftover data, should be deleted. Identify and remove any apps that you are no longer using. Since then, one of the biggest worries among smartphone users has been a lack of storage space. To combat this, some people use SD cards, while others simply delete their crucial files. But did you know that there is so much rubbish and clutter on our smartphones that we can't physically delete them? You can simply clean out your phone with Avast Cleanup Pro! This software scans your phone for any unwanted files and allows you to delete them quickly. You can also quickly discover which files and programs are taking up the most room on your phone! You don't have to physically check your phone to clean it anymore! Key Features Tune-up performance (RAM Cleaner) Stop hungry apps from consuming your resources.
